

28V DC Aircraft Power Cables and Connectors

AGEC is producing the next generation of 28V DC Aircraft Power Cables with molded heads and banding to give the user the longest life possible out of every cable.

Cable Specs:

- Cable meets or exceeds the electrical and environmental requirements of SAE AS5756 (former MIL-C-5756)
- Cable head meets or exceeds the electrical and environmental requirements of SAE AS7974 (former MIL-C-7974)

Cable Options:

- All DC Cables are available in 1/0, 2/0, and 4/0 AWG cable sizes.
- Standard cable lengths are 20, 30, 40, 50 and 60ft with custom lengths available

Part numbers: (XX= cable length in FT)

- 1/0 AWG: DCCA10XX
- 2/0 AWG: DCCA20XX
- 4/0 AWG: DCCA40XX

AGEC offers a complete line of DC **replacement** connectors which allow the user to replace a worn cable head in the field maximizing the life of your DC power cables. Each kit comes complete with a new DC plug, connections and hardware.

Connection Options:

- All DC Connectors are available in 1/0, 2/0, and 4/0 AWG cable sizes.

Part numbers:

- 1/0 AWG: DCA10
- 2/0 AWG: DCA20
- 4/0 AWG: DCA40
